

OPN 2002

Pocket Memory Scanner with Bluetooth

The OPN 2002 Bluetooth memory scanner combines communication options. The device allows storage and transmitted by cabled or wireless interface, both options are provided.

Product Features

Bluetooth & USB communication interface

The OPN 2002 Bluetooth memory scanner combines communication options. The device allows storage and transmitted by cabled or wireless interface, both options are provided. In occasions where Bluetooth is not provided, access by the USB port enables (cabled) data transfer to any USB device.

Scanning control by two buttons

Using this high performance laser scanner is very easy – scan a barcode and it will be stored automatically. When you make a mistake, the lower button allows you to re-scan the barcode in order to remove the item from the memory.

Wide storage & large capacity

Over 25.000 codes can be stored and removed by the user at any time.

Lightweight

The OPN 2002 Bluetooth memory scanner is very easy to carry and use.
